

DATASHEET

UNISON – OPC DA

MAIN FEATURES

- ▶ Status fire inputs
- ▶ Status burglar inputs
- ▶ Status fault inputs
- ▶ Status camera inputs
- ▶ Status info inputs
- ▶ Status generic inputs
- ▶ Status outputs
- ▶ Status OPC system
- ▶ Auto generation/reading of existing tags
- ▶ Validation of OPC-nodes to mark invalid/unused nodes

Unison is a market leading platform with the ability to link various vendors' security systems in an efficient way. Unison uses the latest technology and offers a powerful and user friendly solution that suits all types of businesses and organizations.

PACOM UNISON

PACOM Unison is designed to provide easily managed integrated systems for all kinds of businesses. This makes Unison suitable for organizations and customers with high demands on flexibility and ease of use. Unison cleverly acts as a "bridge" between the sub-systems.

OPC DA

OPC DA (Data Access) client acts as an interpreter between Unison and third-party systems, which provides the ability to connect many different types of OPC compliant devices (such as fire detectors, cameras, etc.) to Unison since most OPC servers supports OPC DA. Unison can thus receive data and information from third-party systems in a standardized and consistent manner.

DESCRIPTION

ID tags - ID tags are created to represent the OPC units' unique ID in the OPC server. These are then used to interact with the device.

Tailored input nodes - The input nodes have event properties which can be tailored to determine when a certain event takes place.

Automatic upload - Supports automatic upload and linking of OPC data fields to Unison.

COMPATIBILITY

Classic OPC DA v2.0 (Integer Types)

Unison Version 5.7.2

ORDERING INFORMATION

PART NUMBER	TYPE CODE	DESCRIPTION
110 001 001	USN-STD	Unison Standard. Includes support for one Unison client workstation.
110 001 002	USN-ENT	Unison Enterprise. Includes support for one Unison client workstation.
110 002 002	USN-ALM	Unison Alarm Module. Includes support for 50 alarm points.
110 003 002	USN-ALM-50	Unison license for 50 additional alarm points.
