- ▶ Read ARX permissions

Support for automatic upload of configuration data.

PACOM Unison now offers a high level of interoperability with the ASSA ARX system. This integration allows users to seamlessly manage access control privileges from a single Unison security management platform for both online and offline doors.

PACOM UNISON

PACOM Unison is a market leading security management system engineered to provide a completely open and flexible solution for security management for virtually any building environment. Unison has been designed to provide tight integration with market leading access control solutions to allow the management and control of door access, administration of identity and cardholders, and the monitoring of any security breaches, using a powerful, intuitive and easy to use graphical interface.

ASSA ARX ACCESS CONTROL SYSTEM

ARX is a cost-effective and user-friendly access control system. ARX is suitable for the majority of requirements for door opening solutions both offline and online, and for various safety and convenience requirements.

ARX is suitable for both small / medium-sized systems and for major advanced global system solutions. Development of ARX access control system and its functions is a constantly ongoing process with customer requirements as the basis, and with new technology that creates new opportunities.

DESCRIPTION

Unison supports reading of system configuration from the ASSA ARX system for a fast and easy deployment. Unison supports complete management of door alarm messages (such as door forced, door held etc.), and the ability to assign access to a cardholder at any door. Doors can be easily monitored from Unison's Graphical User Interface (GUI) with full synchronization of live access logs from the ASSA ARX solution.

COMPATIBILITY

SUPPORTED COMPONENT

Assa ARX Driver
Assa ARX Software
Assa ARX Hardware
Unison

COMPATIBLE VERSIONS

Version: 1.0.5445.28438 and Version 1.0.6172.33071
V3.1.11 (with import/export license), V4.1.1 (with import/export license)
Assa 9016 and 9016 II, Assa DAC (all variants), ARX LCU9016 II
V5.8

ORDERING INFORMATION

PART NUMBER	TYPE CODE	DESCRIPTION
110 001 001	USN-STD	Unison Standard. Includes support for one Unison client workstation.
110 001 002	USN-ENT	Unison Enterprise. Includes support for one Unison client workstation.
110 002 003	USN-ACM	Unison Access Module. Includes support for 10 doors.
110 003 003	USN-ACM-10	Unison license for 10 additional doors.
