

DATASHEET

UNISON VIDEO – MIRASYS INTEGRATION

MAIN FEATURES

Received in Unison client

- ▶ Motion detection
- ▶ Communications error
- ▶ Video loss

Managed from Unison client

- ▶ Move Camera to preset position
- ▶ PTZ (Pan Tilt Zoom) camera control
- ▶ Automatically Switch a camera to a specific monitor on alarm or event
- ▶ Start and stop recording
- ▶ Playback controls such as forward/reverse

Support for automatic upload of configuration to Unison.

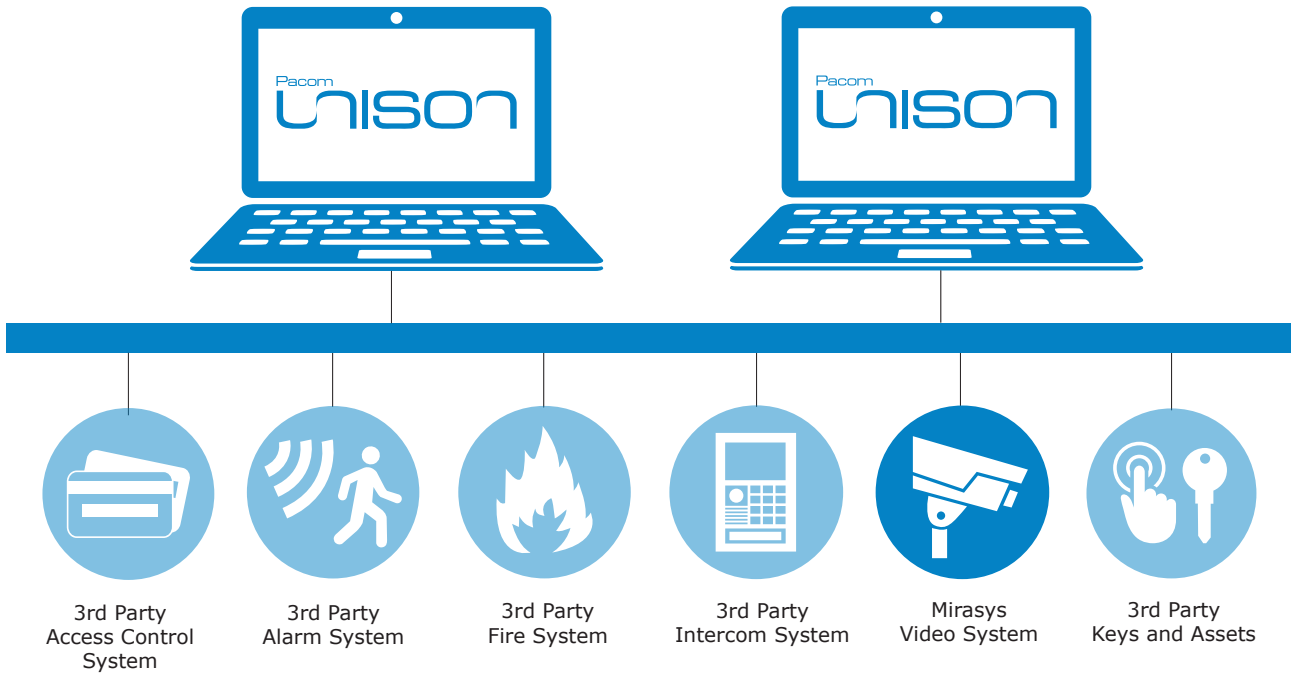

Unison is a market leading platform with the ability to link video with alarms and other events in an efficient way. Unison uses the latest technology and offers a powerful and user friendly solution that suits all types of businesses and organizations.

PACOM UNISON

Unison cleverly acts as a "bridge" between video and other sub-systems. Video from a camera located at the alarm point is automatically controlled by Unison, making an alarm easy to verify. This allows the operator to take immediate action and to focus on relevant surveillance images.

MIRASYS

Mirasys is one of the leading providers of open platform Video Management Systems (VMS) for IP and analog camera surveillance applications and systems. They develop and supply solutions that help organizations manage and utilize information captured by digital video and CCTV cameras.

DESCRIPTION

The Mirasys integration allows for automatic video retrieval in case of an alarm or event for rapid visual alarm verification. Video can be recorded and played/paused which facilitates analysis of any alarm or event that has occurred in Unison. Two way audio can also be streamed between the video device and Unison (listen-in/microphone). Operators are able to manage the cameras in order to view the desired position and angle using the PTZ (Pan/Tilt/Zoom) function and select preset positions.

COMPATIBILITY

- Unison Version 5.8
- Mirasys VMS Master Server 7.x
- Mirasys Gateway 7.x
- Gateway SDK v7
- WebAPI v7

ORDERING INFORMATION

PART NUMBER	TYPE CODE	DESCRIPTION
110 001 001	USN-STD	Unison Standard. Includes support for one Unison client workstation.
110 001 002	USN-ENT	Unison Enterprise. Includes support for one Unison client workstation.
110 002 005	USN-VCM	Unison Alarm Module. Includes support for 25 cameras.
110 003 005	USN-VCM-25	Unison license for 25 additional cameras.
