

DATASHEET

8220 DUAL EXPANSION MODULE

MAIN FEATURES

- ▶ Compatible with 8003 Controller, 8501 I/O device and 8603 IP-based card reader
- ▶ Connects two expansion cards using a single card expansion slot
- ▶ Enables up to four expansion cards to be connected to a single controller/device
- ▶ Keyed for correct card alignment
- ▶ Basic communications with connected expansion cards automatically configured on initial power up

The 8220 Dual Expansion Module enables you to increase the available functionality of the PACOM 8003, 8501 and 8603, connecting up to four expansion cards to a single controller/device.

TECHNICAL SPECIFICATIONS

Input Voltage	12 - 15VDC
Current Consumption	10mA @ 3.3VDC typical
Operating Temperature	EU: -10 to +55°C (14 to 131°F)
Maximum Humidity	UL: 0 to +50°C (32 to 122°F)
Dimensions	90 x 75mm (3.5 x 3.0")
Packed Weight	60g (2.1oz)

COMPLIANCE AND ACCREDITATION

EN 50131-3:2009 Incorporating the related references to: EN 50131-1:2006 +A1:2009 | EN 50130-4: 2011 +A1:2014 | EN 50130-5: 2011
