FEATURES

▸ Support for many web operators simultaneously

▸ Manage cardholders from any web enabled device (create/edit/print/delete)

▸ Assign access privileges

▸ Support for temporary access

▸ Search and filter cards

▸ Cardholder photograph capture

▸ Generate cardholder based reports online

▸ Complete audit logging

▸ Custom web interface (host your own logo and images on the web page)

▸ Send commands directly from the web (e.g., unlock/lock door)

▸ Built-in security for maximum data protection

PACOM GMS Access Management has been made easier with the intuitive PACOM GMS Web Interface, allowing Card Access Management from anywhere using Microsoft Internet Explorer.

GMS operators can perform many card access functions from any machine that has access to the GMS Web Server. Operators can create new cards, edit existing cards, delete cards, assign access levels, provide temporary access and even generate Card Access Reports. Using a Video for Windows device (e.g. a USB camera), operators can capture a photo of a cardholder. Existing images can also be attached from storage devices.

The GMS Web Interface:

- preserves operator privileges
- applies operator partitioning based on the login credentials
- replicates customized fields in GMS Card Access Manager.

Card Access Reports have never been easier to create. Reports can easily be generated from the GMS Web Interface allowing a supervisor to quickly view the whereabouts of the cardholders. The reports can then be saved in many popular formats (such as PDF, DOC, XLS and more) for emailing.

The intuitive PACOM GMS Web Interface allows operators to manage card access from anywhere using a web browser.

FEATURES

- No software installation required
- Straightforward to maintain and update
- Accessible, authorized operators can logon anywhere they have internet access
- Partitioned so that operators can only view information to which they are allowed
- Safe, operators can only perform actions according to their privilege level (view only, edit, create / delete)
- Intuitive, simple to use and administer
- Useable, can operate across multiple platforms (PC, Tablet, Smart Phone)
- Expandable, supports many users simultaneously

COMPATIBILITY

PRODUCT	VERSION
PACOM GMS	4.30 or later
PACOM GMS Web Module	V3.2
Web Server	Microsoft IIS (Internet Information Services) V7.5
Web Browser	Microsoft Internet Explorer V11.0 or later
	Other browsers may also be compatible, but have not been explicitly tested for compatibility and may not support all features.

ORDERING INFORMATION

PART NUMBER	TYPE CODE	DESCRIPTION
100 045 011	GMS-WEB5	GMS Version 4 license for 5 additional card access web clients.
100 045 012	GMS-WEB10	GMS Version 4 license for 10 additional card access web clients.
100 045 013	GMS-WEB25	GMS Version 4 license for 25 additional card access web clients.
100 045 014	GMS-WEB50	GMS Version 4 license for 50 additional card access web clients.
