

BAHRAIN FINANCIAL HARBOUR

Kingdom of Bahrain

OVERVIEW

PACOM Systems is used as the integrated access control and alarm security solution at the US\$3 billion Bahrain Financial Harbour (BFH).

BFH is a landmark world-class, fully integrated waterfront development in the centre of Manama, Kingdom of Bahrain. With office, residential, retail, leisure and dining facilities as well as playing host to some prestigious tenants, it has become a complete financial city and self contained community.

BFH comprises 30 individual development units – all of which are centrally managed using the PACOM Graphical Management System (GMS) solution. At the heart is The Financial Centre, which includes the 53-storey Harbour Towers, the Harbour Mall, and the Harbour House.

PACOM SOLUTION

PACOM is used as the primary access control and alarm management solution. The PACOM solution is responsible for managing access to over 1,500 doors installed throughout the 380,000 square meter site. The security solution also integrates over 750 IP cameras and 650 IP intercoms.
